finally extending into my nose, from which came a yellowish discharre very offensive in character. It was also inflamed, and annoyed me a rost disl. Abort eight mout's ago I was in Atlants, at the house of a friend, who so strongly recommended the use of Swill's Special that I determined to make an effort to procure it. In this I was success ut, and began it use. The influence of the medicine at first was to somewhat aggravate the sore; but soon the inflammation was alsyed, and I began to improve after the first few bottles. My general health has greatly improved. I am stronger, and abe to do eany kind, o work. The cancer on my face began to decrease and the ulore to heal, until there is not a vesture of it left—only a little scar marks the place where it had beed. I am ready to answer all quistions relative to this cure.

anywhere else in the Sunny South? Idaho has been and is still making slow Idaho has been and is still making slow progress toward increasing her population. The reason of this is because the people who are here have never taken any pains or trouble to let people know what kind of a country it is. They appear to realize that they are here and doing well in all respects, especially as regards good health and the rapid accumulation of the sliver dollar, so they have not thought it worth whiles to try the booming business as other Western States and Territories worth whiles to try the booming business as other Western States and Territories have done.
